FAMILIES' & CHILDREN'S EQUALITY

Our Mission Statement:

FACE is a 501(c)(3) designated non-profit organization founded in 1978 for the purpose of advocating children's right to full access to both parents and the extended family, and providing a self-help support group for non-custodial and/or non-residential parents.

Our Mission is to:

- Minimize the emotional upheaval experienced during and after parental separation.
- Promote every child's civil rights to equal access to both parents and the extended family regardless of marital status.
- End the adversarial process in divorce and custody matters.
- Ensure equal, unbiased treatment for all parties in Domestic Relations proceedings.

What is FACE?

FACE is a self-help/support group. We can help you learn to deal with the problems you may face in the family law system.

Parents' rights are constantly being denied by our domestic relations and family law system. Parents begin the family law process believing that it is fair and just. In all reality, what they learn is that the system forces them to make decisions which:

- ✓ deny them equal access to their children
- ✓ create inequitable support obligations
- ✓ deny their access to their home and possessions.

This puts you at a disadvantage for the long legal struggle ahead.

Why join FACE?

Your membership dues are tax-deductible and may include:

- The opportunity to participate in self-help support groups
- Referrals to competent family law experts
- Access to valuable legal materials vital to affecting a positive outcome to your court actions
